## **AFFIDAVIT OF Aida Alvarado**

State of California

Los Angeles County

I, Aida Alvarado, attest that my statements are true to the best of my knowledge.

**Comment** round for ET Docket No. 03-137 and WT Docket No. 12-357.

1. My name is Aida Alvarado. My address is 1801 S Greenville St Santa Ana CA 92704  
2. Mi nombre es Aida soy madre promotor de la educación, soy una madre preocupada

con este tema tan importante para nuestra salud las radio frecuencia son dañina para toda  
humanidad. Me preocupa toda consecuencia que esto genere yo trabajo en la comunidad  
y **me impacta el ver tantas enfermedades que hay y no sabemos las consecuencias pero  
de este tema de las radio a sabemos que puede producir cáncer, acabar con los animales y  
la vegetación. Yo pienso que antes de llevar a cabo este proyecto deberían de hacer una  
investigación de cuales serian las consecuencias que afecten nuestra salud y nos den a  
conocer los resultados de su investigación.**

3. I was shocked to learn that RF Guidelines have been set without the benefit of credible  
studies performed on the health impact to humans, animals, and environment relative to  
RF impact.

4. **Yo estoy tomando cursos de como poder usar la tecnología y quiero saber cual es el  
impacto de las consecuencias a corto y largo plazo para nuestra salud porque la  
tecnología es algo que no se puede parar pero tenemos que estar informados. Yo como  
madre me preocupa porque tal vez yo no vea el impacto pero tengo hijos nietos y les  
agradecería me tomaran en cuenta y me puedan dar la información a cerca del tema antes  
mencionado.**

5. There are compelling arguments supporting the FCC modify RF Guidelines mandating  
inclusion of credible studies performed on the health impact to humans, animals, and  
environment relative to RF impact, and that those guidelines work to prevent or minimize  
negative impacts.

6. Over two (2) million viewers/subscribers have seen and/or read about the positive impact One Million NIU has had on families and community relative to empowering NIU's (New Internet Users) to early adaption of on-line resources for improved quality of life.
7. The documentary by James Russell, [Resonance – Beings of Frequency](#)(Nov2012) explains well the impact RF waves have on the very existence of life and how the Earth's magnetic field's share space with RF waves. They must co-exist, to stymie the Earth's delicate balance of these waves threaten the very existence of life. Such hypothesis warrants inclusion in considering RF Guidelines.
8. Dr. Roger Coghill, Bioelectromagnetic research, "the radiation environment has increased many millions of times from what it was 30 years ago." Understanding the impact of this "million times increase" is worthy of consideration into the writing of RF Guidelines, as it is hypothesized to have negative health impacts.

Respectfully submitted by
